ART FROM WOOD

clerestory collection

True to their namesake, our Clerestory Tables bring elegance and visual intrigue to the table with silhouettes that are a study in geometry. The metal plays the lead with this piece, providing the surface to the wood base. Finished with our in-house patina, the metal flat bar attachments serve as functional supports and aesthetically pleasing breaks between the wood. Available in several sizes and shapes, and with or without a shelf for storage or optional data units, the tables offer plenty of room for personalization. Our Clerestory Collection is a perfect companion to the continuously evolving home and workspace of today: tech-minded, customizable and, as with all our pieces, quality crafted.
