

large slab solid wood tables

- Spicier live edge possible
- More character and grain pattern
- Fewer joint lines on table top
- Requires custom slab selection process - longer specification timeline
- Solid wood top measuring 1.5 - 2" thick - varied according to slab
- Longer lengths possible with continuous grain - up to 18ft

multiplank solid wood tables

- Mild to medium live edge available on Maple, carved edge available on other species
- Lower cost
- No slab selection process
- Solid wood top measuring 1.5" thick
- Continuous grain available from end to end on tables up to 9ft long
- Color and grain variation possible from plank to plank
