ART FROM WOOD

## barlow collection

Our Barlow Collection was born from a desire to create space efficient pieces for the modern commercial office. The footprint is minimal - perfect for on-the fly meetings and smaller spaces. Though don't let the size fool you, these tables pack quite the punch of handy extras. The standing height table boasts three hooks in the steel base for laptop bags and personal items. Additional hooks in the lower shelf provide cord management for easily integrated technology options. And the coffee table is conveniently sized for impromptu sofa work sessions. Our Barlow tables are a perfect companion to the continuously evolving workspace of today: flexible, mobile and, as with all our pieces, quality crated.
