ART FROM WOOD

fernweh collection

Modern design. Heritage quality. Designed and produced by Fernweh Woodworking, the Fernweh Collection is offered through Meyer Wells to the commercial market. The furniture line offers sculptural forms with purpose and whimsy. Each piece tells a story - of dedication and patience and the beauty that can be found when embracing both. The curved lines exude elegance, creating harmony between light and scale. Organic contours allow the beauty of the materials, a curated selection of high-quality hardwoods, leather, and upholstery, to come to life. The pieces in the collection are inspired by the master crafters who laid the foundation for great design - meant to be passed from generation to generation.
