

# tolt collection

Our Tolt Collection offers a lighter look at communal space furniture with the focus on angles, depth and perception. The pieces are casual - approachable - with a contemporary take on mid century flair. The juxtaposition of cool metal with warm, natural wood is really the cornerstone of the collection. The way the two play off and contrast one another highlights our commitment to finding the inherent beauty in the materials with which we work. The stacked steel and wood base, the angular legs, the triangle details that find their place in every piece - all of this amounts to a dedication to quality wood and metal furniture.
