

A high-angle photograph of three modern wooden chairs arranged on a dark, textured floor. The chairs are made of wood with different finishes: one is a rich, dark brown, another is a smooth black, and the third is a light, natural wood. The chairs have curved backs and simple, rounded seats. The lighting is dramatic, highlighting the grain of the wood and the smooth surfaces.

ART FROM WOOD

## fernweh collection

Modern design. Heritage quality. Designed and produced by Fernweh Woodworking, the Fernweh Collection is offered through Meyer Wells to the commercial market. The furniture line offers sculptural forms with purpose and whimsy. Each piece tells a story - of dedication and patience and the beauty that can be found when embracing both. The curved lines exude elegance, creating harmony between light and scale. Organic contours allow the beauty of the materials, a curated selection of high-quality hardwoods, leather, and upholstery, to come to life. The pieces in the collection are inspired by the master crafters who laid the foundation for great design - meant to be passed from generation to generation.
